

## A cool class trip

Our class trip started at 8.15 at the bus station. We waited a little bit and then the bus came. We said goodbye to our parents and when the doors of the bus opened all people went in. In the bus we sat down to our seats. During the travel we played Black Stories. After 30 minutes we reached our destination. The destination was a little bus station in Engstingen.

There we met Stephan, he was one of two instructors. He showed us how we had to use the map and he told us the destination for the first walk. It was the Seitz hut. After a short walk we were at the hut. Then we made a little break and introduced ourselves. Stephan made four groups, we went to the slackline parkour. A person in each team was blindfolded in order to make the whole activity even more challenging. The slacklining wasn't just normal slacklining, because it had a little tweak to it. We had checkpoints and if one of our teammates fell on the ground, the entire team would have to restart from the last checkpoint. So we started and ran off to the courses. It was very hard but when we finished we felt great and happy and we all said: "That was so much fun!". When we came back from the parkour we were allowed to grill sausages. It was yummy! Then we went to the house where we slept. The way was a little bit dangerous, because we needed to walk over a street and the cars were really fast. After a while we saw the house. The other instructor was Phillip, he showed us the house. We made our beds and then we ate dinner. The food (Spaghetti) was delicious! After that we played billiard, table-tennis and a classmate read us a story. The day felt very short and in bed we talked and laughed and fell to sleep.

On the second day we were put into 4 groups again and set off to the woods. With a map and a compass, we had to find our way to a cave, a very small one and then to a barbeque place in the woods. But we had a problem because we got lost, couldn't find the cave and we had to call somebody to come and pick us up. He showed us the way to the cave and there we met the other groups. When we got there we were so tired so we took a big break. Then the first activity we did there was a kind of climbing but not really climbing, the second one was to save a cow from dangerous acid (not really). The acid was supposed to be dangerous for us too, but as I said before it was not real. The last activity was a trust test (but our group didn't do it).

On the last day, we packed our bags and cleaned the bedrooms. Then we went to the assembly in the seminar room. There we played a funny game and planned how to clean the house. We all got jobs to clean the rooms, the kitchen, the hall and the stairs. After that we brought our bags into the car of Mr. Meyer. Then we went together to the next bus station and we waited for the bus. After 10 minutes the bus came and we went to Reutlingen. In the bus we talked about the class trip, the experiences of the last two days and other things. It was very foggy and we couldn't see anything. But finally our bus found the way to the bus station of Reutlingen. Our parents were already there with our bags and waited for us. When we left the bus, we were happy to see them. It was a very cool class trip to the Alb.
